December 9, 2024

Dear Brett, Manny, Art, and Jeffrey,

I wanted to reach out personally to express my deepest gratitude for the incredible work you've done in creating Sammie, our AI parenting assistant, and Geno, the customized song generator. These world-changing tools would not have been possible without the dedication and collaboration of each of you and your respective teams. Your efforts have genuinely enhanced Gift-Connect's ability to reach its goal of bringing life-changing advancements for parents and caregivers to the world.

Given the limitations of our small budget, I appreciate that you all helped bring these projects to fruition well below the normal cost. It truly took a village—teams from four different companies working below your normal fee and generously donating their time and resources to bring these programs to life:

- **Brett Lechtenberg**, Chief AI Officer and President of Total Success Technologies
- **Manny Torres**, Founder and Solution Architect of AI Pro's Inc
- **Art Winford**, President and Machine Learning Engineer of CPC Ninja
- **Jeffrey Shorthill**, President and Lead Software Engineer for Elevated Consultants LLC

Your combined expertise and commitment have resulted in two globally impactful programs that are set to revolutionize parenting support.

Sammie and Geno, as part of our comprehensive parenting suite, can now be deployed worldwide to assist any parent or caregiver with access to a computer, internet, smartphone, or tablet.

I also want to acknowledge and thank you for collaborating to create a comprehensive marketing and deployment plan, developing monetization strategies, formulating a community impact plan, and designing training programs and materials for the tools' usage. Your holistic approach ensures that these tools won't just exist—they will reach those who need them most and make a real difference in their lives.

Your selfless contributions embody the spirit of innovation and compassion that Gift-Connect strives for. Together, we are taking significant steps toward empowering parents and caregivers everywhere, and I couldn't be more grateful for your partnership in this mission.

Thank you once again for your exceptional work and dedication. I look forward to our continued collaboration as we launch these tools and witness the positive impact they will have around the globe.

With heartfelt appreciation,

A handwritten signature in black ink, appearing to read "Sam". The signature is stylized with a large, looped "S" and a cursive "am".
